GOOD TO KNOW...

The first mechanical alarm clock was invented by Levi Hutchens, of Concord, N.H.

New Hampshire

New Hampshire is proof that variety is the spice of life. The state enjoys four distinct seasons and a topography that boasts idyllic towns, mountains, lakes, and even a slice of the Atlantic Ocean. Within the Granite State's diverse yet compact area are opportunities to enjoy a wide variety of activities during every season, including skiing, golfing and hiking. Planners can also count on diversity when it comes to meetings-friendly properties in New Hampshire, including a variety of historic inns, upscale resorts and convention hotels. While New Hampshire has the modern conveniences it takes to accommodate groups, the state remains unspoiled by overdevelopment. To top it off, it's one of the most affordable destinations in the Northeast.
