Tour the Summit Observatory...

Choose Biodiesel or Steam...

An Unforgettable Experience...

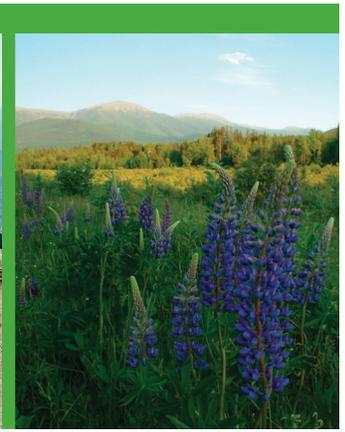

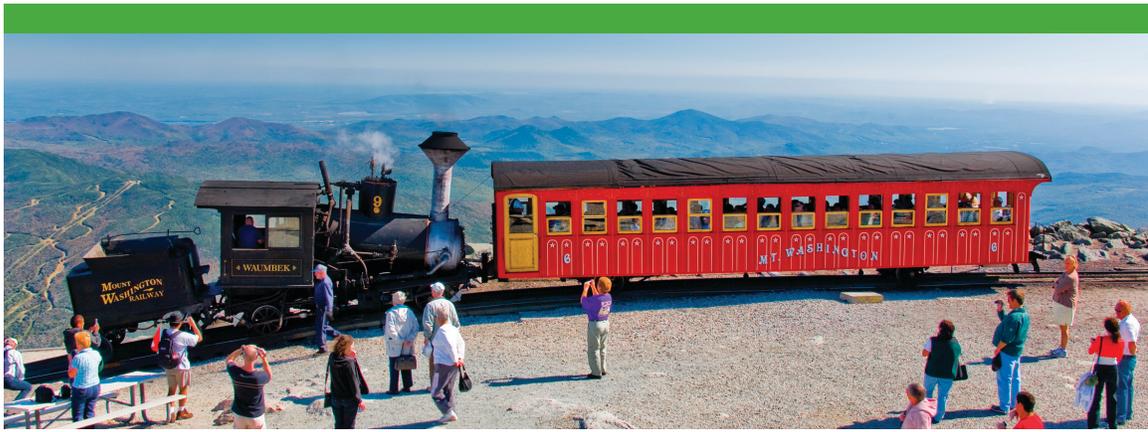

Climb to the highest peak in New England on the world's first mountain-climbing cog railway!
 Combining 19th century innovation with 21st century eco-friendly biodiesel technology

- ⚙ Choose either **coal-fired steam** or new **biodiesel** powered engines.
- ⚙ Your **3-hr/6 mi round trip** includes your round trip ticket, admission to the Mt. Washington Observatory Museum and approximately **one hour to enjoy the summit of Mt. Washington**—the highest peak in the northeast.
- ⚙ During your trip you will travel over **Jacob's Ladder**, the **second steepest trestle in the world** with a 37.41% grade—a true engineering marvel.
- ⚙ **Made in the USA...** The engines and coaches are designed and built at the Cog by its crew of talented machinists and craftsmen.

New for the 2012 season

- Significantly **LOWER** group rates—see schedule for rates as low as \$25. (Students \$20)
- Steam Train runs at 8:30am June 16th–October 21st
- Trains run on the half hour beginning at 8:30, 9:30 or 10:30, depending on the season
- Four biodiesel engines means more capacity. Maximum of 210 people
- Recorded audio tour on the train tells the story of The Cog and surrounding area.
- **Custom Tours**—The Cog offers special group tour add-ons through a partnership with the Mt. Washington Observatory. For example, take a hike around the summit, tour our train shop or see the inside of the Observatory. *Call for details*
