Did You Know?

NEW HAMPSHIRE'S AGRICULTURE

- There are just under 4,400 farms in the state.
- New Hampshire is #1 in the nation for organic sales as a percentage of all agricultural sales.
- New Hampshire is #1 in the nation for percentage of farms with direct-to-consumer marketing sales. Spending from agritourism related activities in New Hampshire is measured at nearly $400 million. *(Plymouth State University, 2011).*
- Agriculture (production and agritourism) supports over 12,000 jobs in New Hampshire. *(Plymouth State University, 2011).*
- Farms reporting some type of agritourism activity as part of their business increased by 82% from the 2002-2007 Agricultural Census.
- Recent statistics show New Hampshire is a leader among the states when it comes to the percentage of farms that market their food directly to consumers, via farm stands and pick your own.
- Farm numbers increased in New Hampshire by 5% from the last Agricultural Census to the most recent. *(2012 Census—the Ag Census is conducted every 5 years).*

NEW HAMPSHIRE'S DAIRY INDUSTRY

- The New Hampshire dairy industry impacts state and local economies with more than $141 million in total output, 3,717 jobs and more than $19 million in labor income.
- Drink more milk; consume more dairy. Not only is it good for your health, but in doing so you help preserve open space.
- 60-70% of the state's crop land is managed or maintained by dairy farmers.
- When you purchase milk at the grocery store, only 30% of the price you pay gets back to farmers.
- Milk is a regional product. New Hampshire's dairy farmers supply, in part, to brands you purchase at the grocery store.
- Each and every day, New Hampshire's dairy farmers work hard to produce fresh wholesome milk for you and your family. NH's dairy farm families take pride in high quality animal care and maintaining NH's natural resources. They take tremendous pride preserving the land where they live and work, protecting the air and water they share with neighbors, and being active members of their community.
- From farm to store, New Hampshire's dairy farmers work with passion to provide you and your family with wholesome and nutritious dairy products. 99% of New Hampshire dairy farms are family owned and have been for generations.
- The New Hampshire dairy industry is located primarily in the Connecticut River Valley on the state's western borders and along the Merrimack River Valley in the center of the state. There are approximately 125 dairy farms in New Hampshire with an average of 115 milking animals per farm.

Dairy Fun Facts

An average dairy cow weighs about 1,200 pounds.

The average cow chews at least 50 times per minute.

Cows actually do not bite grass; instead they curl their tongue around it and pull.

On average, cows produce 7 gallons of milk per day.

Cows are pregnant for 9 months just like people.
