NORTHERN NEW HAMPSHIRE'S FOOTPRINTS FROM THE PAST TOUR

Suggested Group Itinerary

Best Time to Visit: Spring through Fall

New Hampshire was the first vacation destination in the United States that flourished with the dawn of train travel. Stately resorts and lakeside and mountain towns dotted the entire northern half of the state. Famous stories such as Pollyanna and Curious George were written in New Hampshire while their creators lived and vacationed here. While these authors enjoyed the natural assets in New Hampshire for peace and inspiration, there was a whole other group who were turning this gorgeous state into an adrenaline playground by chiseling the first hiking and ski trails in the country. This tour will take you through the first “footprints” of its kind in our country as you follow the path of those who traveled here centuries before.

Day 1

- Enter New Hampshire through Littleton, a mountain town that epitomizes the New England setting. This is also the hometown of Eleanor Porter, the creator of Pollyanna and visitors can see the famous statue in front of the town Library on Main Street. B.W. Kilburn began in Littleton in the 1800's, famous for stereoscopic view photography, considered to be the original comic strip. This library (1906) contains the second largest collection of Kilburn's work and is open for the public to explore.
- Deeper into New Hampshire, you will find [The Rocks Estate \(1\)](#) in Bethlehem. This beautiful property is managed by the Society for the Protection of New Hampshire's Forests. You will enjoy a maple experience tour through their sugar shack and see how it was done back in the day. End the tour with a horse drawn ride through their tree farm with the Whites laid out before you.
- Turn up the tempo a bit on this next adventure with an afternoon or sunset ride on the Androscoggin River with [RaftNH \(2\)](#) . This is the same river where loggers once completely depleted the entire forest by logging the Great North Woods and sending the logs down this river to be retrieved. The [Northern Forest Heritage Park \(3\)](#) in Berlin is a completely preserved, historic logging camp and the location of exciting events such as ATV competitions and a Riverfire Festival.
- Overnight in North Conway or Jackson

Day 2

- Wake up with the help of gravity at [Cranmore Mountain Adventure Park \(4\)](#) where you will dive right into ziplines, canopy tours, mountain coasters, and more! Cranmore was one of the very first ski areas in the United States where the public would go to learn to ski, the site of the first skimobile lift and trestle, and the playground for the famous Hannes Schneider in the 1940's. Hop over to Jefferson for a sled dog adventure (any time of the year!) with Muddy Paw.

NORTHERN NEW HAMPSHIRE'S FOOTPRINTS FROM THE PAST TOUR

Best Time to Visit: Spring through Fall

Day 2 Continued

- After lunch, head 10 minutes up Base Road to the [Mount Washington Cog Railway, \(6\)](#) the first ever mountain climbing train in the world to the summit of New England's highest peak of 6,288'. There used to be a resort at this summit that has a reputation of having the "Worst weather in the world." Now, visitors can enjoy this dramatic peak within the comforts of a summit observatory with a café and gift shop and the amazing new weather museum with interactive exhibits.

Day 3

- Complete your mountain loop by circling back to Franconia Notch State Park, which is the site of the Old Man of the Mountain memorial, [Cannon Mountain Tramway \(7\)](#), and the impressive [Flume Gorge \(8\)](#). The Appalachian Trail crosses directly over Cannon's summit and meets up with the Crawford Path soon after, the oldest hiking trail in North America.

Visitors here will explore this impressive collection and learn how police motorcycles played a pivotal role in United States' history. Also, you can see a room where the bikes are worked on and restored.
- Time to cross the lake with the [Mount Washington Cruises \(11\)](#) on their one-way lunch option to Wolfeboro. Your coach can drive around to meet you on the other side. This cruise originally toured the lake in 1872.

- Continue North of the lake to load up on barrel pickles and penny candy at the [Moultonborough Country Store](#) (a.k.a. that Old Store) (14) that is the oldest, continually operating country store in the United States that opened for trade in 1781 and hasn't closed since.

Best Time to Visit: Spring through Fall

In New Hampshire, you can find an adventure that will bring you closer to your friends and change the way you view the natural world around you. Soar through the air, ride with the rapids, tunnel through narrow boulder caves, learn survival skills, and look wildlife in the eye.

Day 1

- Start out this tour big with BIG DROPS at [Gunstock Mountain Resort \(1\)](#) in Gilford on their canopy and zipline course. Gunstock has the longest zipline in the continental United States at a mile and a half hitting up to 55 mph.
- After lunch, split up your drive north with a stop at the [Squam Lakes Natural Science Center \(2\)](#) in Holderness where you will see mountain lions, bobcats, raptors, otters, and more along a nature trail in their large, natural habitat areas. Many of these animals were rescued.
- Don't eat just any dinner; go to [D'Acres Farm \(3\)](#) in Rumney where Regina will do a cooking class using local ingredients and organic foods which you can all feast on afterwards. This is a working farm and educational center with overnight options in shared rooms for groups up to 20 guests, but of course, you can come for the day for their cooking programs and events.
- Head over to Lincoln for overnight after dinner.

Day 2

- Wake up in the morning with [Lost River Gorge and Boulder Caves \(4\)](#) which has a wooded trail with boardwalks that bring guests over cascading falls and to a series of caves including one called the Lemon Squeezer.
- After lunch, journey even deeper into the White Mountains on an [Alpine Adventures Off-Road Safari Tour \(5\)](#) in their custom 6-wheel off-road vehicles that can get as crazy as the group inside.
- Moose are moving the most at dusk and dawn so once the sun starts to set, hop on the modified [Pemi-Valley Moose Tour \(6\)](#) bus with its brake system and engine hum that won't scare the moose away. They have a 98% sighting rate.

If you want to shorten the trek, you can take the [Mount Washington Auto Road's \(9\)](#) guided stagecoaches part way up Mount Washington and then get dropped off at the Alpine Garden Trail. From here you can trek to the Lake of the Clouds AMC high hut and continue to the summit of this amazing peak. Views are spectacular and the experience is challenging and rewarding.
